DETAILED ACTION

1 A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/6/2007 has been entered.

2 Claims 1-46 are allowed.

STATEMENT OF REASONS FOR ALLOWANCE

3 The following is an examiner's statement of reasons for allowance:

The obviousness rejection over Cottard et al. (US 2001/0023515 A1) in view of Huglin et al. (WO 00/25730) has been rendered moot because the comparative data submitted in the Declaration filed on 3/6/2007, is sufficient to rebut any case of prima facie obviousness of the claimed combination of ingredients because the comparative data shows that the claimed composition that comprises at least one oxidation base or direct dye in a combination with a methylglycinediacetic acid (MGDA) of the claimed formula (I), achieved a superior results of homogeneity and uniformity of color along the hair, because of its low selectivity (1.18) over the composition of the closest prior art of record that comprises EDTA and achieved a high selectivity (3.25). Accordingly, the claimed subject matter as a whole would not have been obvious to one having ordinary skill in the art of hair dyeing formulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
